ADDENDUM TO MEMBER ENROLLMENT FORM

TO: Board of Trustees
Municipal Police Employees' Retirement System
7722 Office Park Boulevard, Suite 200
Baton Rouge, LA 70809-7601

I hereby certify that as a new enrollee applying for membership in the Municipal Police Employees' Retirement System (MPERS), I have six (6) months from the date of employment to complete the enrollment process and become a fully active member of MPERS. The enrollment process begins with filling out the Member Enrollment Form and Medical History, having a physical examination and sending the forms to MPERS office. Also included in this process is the completion and submission of this Addendum to Member Enrollment Form.

I further understand that if I complete the process within the six (6) months period following employment, I will begin vesting for regular and disability benefits from the date of my employment. **If I do not complete the process within the six (6) months period, I will not begin vesting for disability benefits until the date I complete the enrollment process, although vesting for regular retirement will begin with the date of my employment.** If I am injured in the line of duty and apply for disability benefits, I will have the responsibility of proving that the condition was not preexisting.

I understand that the provisions of Louisiana Revised Statute 11:216 state that "Any disability claimed by a member of a state or statewide retirement system must have been incurred after commencement of service in the system with which the claim is filed. Disability claims shall not be honored in the case of preexisting conditions." **This in no way affects my membership in MPERS nor my eligibility to apply for disability benefits for condition(s) not preexisting.**

I am aware that should I not provide a full and accurate disclosure of all information requested, or should I intentionally make any false statements with respect to my application and the enrollment process, I may be guilty of perjury and/or false swearing and subject to prosecution therefore.
